BHD&S was founded by people who both play and love the sport so they know what it takes to make a league successful. Their combined experience includes 30+ years of league play as well as countless travel tournaments to such places as Pennsylvania, Ocean City, MD; Barrie, Ontario; to name a few. Players make the league which is why BHD&S is committed to continual improvements and enhancements based on the feedback received from league participants. If you're a serious player or just want to have some fun, come down and check us out.
